DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Group II, Claims 40-48, 76 and 77 in the reply filed on 5/19/06 is acknowledged.

Claims 1-39, 49-75 and 78-84 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Group, there being no allowable generic or linking claim.

Specification

The disclosure is objected to because of the following informalities: On page 6, lines 2, 4 and 9 are missing application serial numbers. Appropriate correction is required.

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 40-45 and 76 are rejected under 35 U.S.C. 102(b) as being anticipated by Dennis et al.

The Dennis et al. reference discloses a method of delivering mold charge pellets to a molding machine including the steps of "providing a stream of molten plastic" (see col. 4, lines 60-67), "cutting" 40 said stream to form pellets, "carrying" said pellets on an "arms" (40a - 40d) toward "molding machine" 26 and discharging into cavities 30, as claimed.

Allowable Subject Matter

Claims 46-48 and 77 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Larsen reference discloses another pellet forming machine, similar to Applicant's device.
